

DROP

Alert

Monitoring Your Sump Pump - All The Time

A malfunctioning sump pump can cause a lot of damage quickly! The DROP Alert lets you know when a problem is sensed saving the cost of lost valuables.

Features

- Senses high water conditions and monitors temperature
- Home internet connection allows homeowners to receive text, email and push notifications whether you are home, at work or away on vacation
- Real-time alerts assure homeowners that their property is protected from extensive water damage and expensive insurance claims
- 85 decibel audible alarm
- 2 (AA) batteries provide back-up during power outage, tripped GFI, or tripped circuit breaker
- DROP App to Control System from Anywhere
- 1 Year Warranty

Benefits

The DROP Alert is a sophisticated wireless water sensor designed to integrate seamlessly with all other elements of the DROP Smart Water Management System. This wireless capability makes it easy to monitor and control it all right at your fingertips from any smartphone or other mobile device, whether you are at home or away.

DROP Alert provides critical data to the DROP water management system to help protect your home from water damage. DROP Alert will sense high or low water levels and continuously monitor the temperature. This is especially useful in homes that depend on a sump pump to keep their basement dry.

The DROP Hub

The Alert requires the function of the DROP Hub for remote monitoring. The Hub is the connection to everything on the DROP Smart Water Management System. It integrates all your DROP residential water devices together.

Installation of the DROP Alert is quick and easy.

Simply mount it to the wall, fasten its float to the desired level, then add to your existing DROP Hub.

The DROP Hub

The DROP Alert requires the function of the DROP Hub. The hub is the connection to everything on the DROP Smart Water Management system. It integrates all of your residential water devices together.

The DROP Remote

This unique device is an excellent accessory with any other DROP product. This smart remote lets you turn on/ off your water with a convenient button, notifies you of new system status events, and extends your wireless DROP Link network.

The DROP Leak Detector

Never worry about coming home to frozen pipes, absurdly high water bills or a soaked kitchen. These inconspicuous water-saving devices integrate with our smart water monitoring system to safeguard your home.
